

— 3-MONTH — SUMMER SCHOOL

Transform Intervention

with *SRA FLEX Literacy*™

SRA FLEX Literacy™ is a powerful, flexible, data-driven intervention system for Grades 3 and above that combines the best of computer-based and teacher-led instruction, with collaborative learning to prepare students for college and career. By committing your school or district to trying *SRA FLEX Literacy*™ for Summer School, you're taking a big step toward driving reading success, and boosting literacy achievement for struggling readers.

Over the course of your Summer School program, McGraw-Hill Education representatives will be there to support you as you implement your trial, and ensure you achieve the best possible results from your implementation—raising scores together.

Ready to take literacy intervention to the next level?

We'll get you started quickly, and guide you on the journey as you create dynamic instruction through the powerful Digital, Print, and Project Experiences. Target a personalized learning experience for each student, and apply data to drive optimal instructional decisions and interventions.

Once you see the proof, you will be sure to retain *SRA FLEX Literacy*™ to continue to assist at-risk students with raising Lexiles and lifting reading achievement—effectively contributing to their future college and career readiness.

SRA FLEX Literacy™ delivers.

Powerful Instruction

Deliver the best of computer-based and teacher-led instruction to accelerate student growth. Multiple learning modalities motivate and engage students.

Flexible Implementation

Several implementation models and time options fit any classroom. Affordable entry-level options and easy expansion opportunities are provided.

Data-Driven Learning

Informed instruction meets each student's individual needs. Robust performance-data tools deliver student-, classroom-, and school-level planning and decision making.

3-MONTH SUMMER SCHOOL OPTIONS:

Your representative will assist you in selecting the program options that are right for your school.
