Discipline-Specific Toolkits

Discipline-specific toolkits, developed by OLC-certified Digital Faculty Consultants, provide users of McGraw Hill courseware guidance on designing, facilitating, and assessing students in an online environment. The toolkits focus on the needs of instructors new to teaching online and offer strategies for getting started and improving course quality over time.

Personalized Support

McGraw Hill's industry leading Implementation Team supports over twenty thousand faculty members a year in developing, designing, and delivering quality courses. Faculty can schedule a consultation with one of McGraw Hill's over 100 OLC-Certified Consultants who will guide instructors through pedagogical best practices, whether developing a course for the first time or reviewing and refreshing an existing course.

Digital Faculty Consultants

McGraw Hill Digital Faculty Consultants (DFCs) are faculty from across the country that work to support other faculty implementing McGraw Hill products. Over 50 are certified through the OLC Quality framework and provide valuable perspectives as product experts and discipline specific practitioners.

Implementation Consultants

Implementation Consultants are dedicated partners to local faculty providing ongoing, personalized implementation support efforts to maximize course quality. Each member of the team is certified through the OLC Quality Framework and assist thousands of instructors each year.

Learning Specialists

Field Learning Specialists are product specialists who partner with Product Teams and the Field Sales Representatives to support faculty in selecting and implementing McGraw Hill digital products. The team is certified through the OLC Quality Framework and deliver in-person and virtual support at local institutions.

On Demand Support

McGraw Hill Customer Experience Group (CXG) and Self-Support Resources provide 24/7 support for all McGraw Hill digital products. From learning to use a McGraw Hill product to technical support, these resources are available to serve students, instructors, and administrators in their exact time of need.
