

Harness the Power of Math and Play!

Building Blocks® PreK Math is a curriculum designed to support teachers and nurture the early mathematical development of young learners. Grounded in a strong research base, *Building Blocks* PreK Math presents mathematical learning through daily interactive activities and exploration. Now, teachers can access the same trusted content in new ways with these powerful enhancements:

What's New

- Full Spanish parity for all components to support dual-language instruction
- Additional multilingual learner support in the Teacher Edition
- Math Mindset activities that tie social-emotional learning to math instruction
- Redesigned teacher experience for ease of use
- Fully accessible, redesigned digital practice activities

Research-Proven Features

- Daily hands-on learning activities with manipulative
- Easy-to-use lesson plans for whole-group, small-group, and center activities
- Differentiated instruction to meet the needs of all children
- Developmentally appropriate technology and digital practice activities
- A lesson model structured to incrementally develop children's mathematical thinking and reasoning abilities
- Ongoing assessment as an integral part of learning
- Consistent alignment with state and national early childhood standards in the key mathematical strands
