At McGraw Hill, we're committed to supporting academic integrity.

- Internal analytics alert us to suspicious activity on our digital platforms
- Secured access to instructor resources
- A team dedicated to investigating piracy and integrity violations

Connect & Academic Integrity

With a simple, consistent layout of course resources and interactive assignments, integrated SmartBook readings and personalized quizzes to motivate and build student confidence, Connect makes it easy to create a course that promotes academic integrity.

Creating high-integrity assessments in Connect

Leverage Connect's built-in policies and question types to design high-integrity assignments.

- Assessment policies, including time limits, disabling printing, password protection, question pooling, and question scrambling
- A variety of available question types such as algorithmic questions, adaptive learning assignments and writing assignments
- Limited feedback and answers displayed to students to avoid answer-sharing

Remote proctoring capabilities

McGraw Hill and Proctorio have partnered to deliver academic integrity tools within Connect, including browser-locking capabilities, student identity verification and remote proctoring. Instructors get an at-a-glance view of potential academic integrity concerns with instant and detailed reporting. Proctorio's basic suite of features is included with Connect at no extra cost.
