

# Spelling Mastery International Edition

Professional Learning Solutions for  
Schools in Australia and New Zealand

## Our Professional Learning Framework

McGraw Hill Australia provides a tiered professional learning pathway for Spelling Mastery International Edition to support successful classroom delivery and sustainable outcomes. To provide this standardised, high-quality training, we have partnered with Direct Instruction trainers and training organisations in Australia and New Zealand. All Professional Learning is booked through McGraw Hill and delivered by a selected trainer/training organisation that best fits the location and needs of the school.

## Looking for Training on Other Direct Instruction Programs?

If your school is seeking professional learning for other Direct Instruction programs — such as Reading Mastery Transformations, Connecting Maths Concepts, or Corrective Reading — we'd love to hear from you. Our team will take the time to understand your goals and connect you with a qualified trainer to deliver tailored, high-quality Professional Learning.

While our initial focus is on Spelling Mastery International Edition, we're committed to expanding our training offerings to include other Direct Instruction programs in the future, based on demand.

Professional Learning is essential for the successful implementation of any new curriculum resource. This is why we work with schools to find the best solution to fit your needs. Below is an outline of what we offer:

### **Product Guide Training** *(Complimentary)*

Delivered by McGraw Hill Learning Solutions Consultants, this no-cost introductory session provides the foundation for getting started. These sessions are designed to last from between 1-2 hours depending on need.

It includes program structure, placement testing guidance, classroom scheduling advice, and a resource overview. Schools can also gain complimentary access to on-demand training modules, recorded webinars, and assistance throughout the school year with program queries and support.

### **Paid Professional Learning**

Delivered by practitioners in Australia or New Zealand, paid Professional Learning is conducted by NIFDI-qualified trainers with classroom experience using Direct Instruction programs. All partner trainers meet McGraw Hill's professional learning standards and have a minimum of two years' experience delivering Direct Instruction. These facilitators ensure schools are trained to implement Spelling Mastery with fidelity and success.

Options 1 and Option 2 (Comprehensive Package and Refresher Package) are designed to be delivered onsite, either at your school or at a designated training location located as close as possible to your school. However, parts of the training such as scheduled check-ins can be delivered remotely if preferred.

Option 3 (Online Training) is designed to be delivered online for schools in remote locations. This is to accommodate teachers who cannot easily travel to a training destination or where costs are prohibitive for physical training.

All aspects of the training will be designed and confirmed with your school and the trainer to ensure the most cost-efficient and flexible delivery to suit your needs.
